How to Make Pine Cough Syrup at Home

Has no equal for prompt results. Takes but a moment to prepare, and

Pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several elements that have a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup.

Either way, you make a full pint—more than you can buy ready-made for three times the money. It is pure, good and tastes very pleasant.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—irritated membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated pound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs. Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.
